EDUCATION

City College of Angeles

Bachelor of Science in Computer Science

- Honors: Dean's Lister (2023 – Present)

Angeles City, Pampanga

2023 – Present

TECHNICAL SKILLS

Languages & Frameworks: JavaScript (ES6+), TypeScript, Java, NodeJS, ExpressJS, HTML5, CSS3

Front-end & Styling: React, Tailwind CSS, Bootstrap, DaisyUI

Databases & Cloud: PostgreSQL, MySQL, Firebase, REST APIs

Tools & Automation: Git, GitHub, N8N, Dify, Android Studio

TECHNICAL PROJECTS

Smile Check: Dental Clinic Management System (In Development)

Full-Stack Developer

- Engineering a cloud-native clinic management system utilizing a modular service-layer backend, PostgreSQL, and Prisma ORM for optimized data handling.
- Building a responsive chatbot that processes natural language to directly execute database commands for reservations, schedule blocking, and intelligent auto-booking algorithms.
- Implementing rigorous security measures, leveraging encryption for electronic medical records and Firebase for comprehensive user authentication.

DOST Automated Web Scraper & Alert System

Automation / Backend Developer

- Developed an automated workflow utilizing n8n to continuously scrape time-sensitive data from the Department of Science and Technology (DOST) website.
- Engineered a location-based notification architecture that dynamically routes and broadcasts relevant data to end-users via Discord, Telegram, and SMS chatbots.

Fitness & Nutrition Tracker App

Mobile Developer

- Developed a native Android application using Java and Android Studio to facilitate daily macro tracking and support users in managing caloric deficits.
- Implemented full CRUD functionality to efficiently manage daily nutritional logs, calorie counts, and personal training notes.

Personal Online CV & Dify Personalized Chatbot

Full-Stack Developer

- Developed a web-based professional portfolio using HTML, CSS, Tailwind, Bootstrap, and JavaScript.
- Engineered a personalized AI chatbot integrated with Dify that utilizes session variables to store and retrieve personal information to answer user inquiries accurately.

Web-Based E-Commerce for Purrfectly Stitched

Full-Stack Developer

- Architected a comprehensive e-commerce platform featuring modular Admin and User interfaces.
- Built essential business systems including Inventory Management, Point of Sale (POS), and a custom CMS.

PROFESSIONAL EXPERIENCE

Gngn Eikaiwa Phils

Language Assessor

June 2025 – Jan 2026

Angeles City, Pampanga

- Evaluated language proficiency and provided detailed feedback to improve communication standards.

Vibes Fitness Gym

Fitness Instructor & Cashier

Aug 2023 – Nov 2025

Angeles City, Pampanga

- Managed client relations, financial transactions, and provided instructional guidance for fitness programming.
